DETAILED ACTION

Response to Amendment

1. Applicant's explanation of the instant invention in pointing the difference with the cited prior art was found to be persuasive.

EXAMINER'S AMENDMENT

- 2. In view of the allowable subject matter, the withdrawn nonelected claims were cancelled as per the Applicant's election of Group I, Species I claims without traverse in response dated October 17, 2005.
- 3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 7 – 20 have been cancelled.

Allowable Subject Matter

- 4. Claims 1 4 and 6 are allowed.
- 5. The following is an examiner's statement of reasons for allowance:

Claims 1 – 4 recite, inter alia, a bipolar transistor comprising an emitter comprising an intrinsic emitter portion and an extrinsic emitter portion, a base comprising an intrinsic base portion in electrical contact with said intrinsic emitter portion and an extrinsic base portion in electrical contact with said intrinsic base portion and electrically isolated from said extrinsic emitter portion by emitter/base spacers, wherein

said extrinsic emitter portion is recessed below the upper surface of the extrinsic base portion and a collector in electrical contact with said intrinsic base portion. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Claim 6 recites, inter alia, a bipolar transistor comprising an emitter, a base comprising an intrinsic base portion in electrical contact with said emitter portion and an extrinsic base portion in electrical contact with said intrinsic base portion and electrically isolated from the emitter by emitter/base spacers, an upper surface of the extrinsic base portion is salicided to the emitter/base spacers and a collector in electrical contact with said intrinsic base portion wherein the emitter is recessed below the upper surface of the extrinsic base portion. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Conclusion

- 6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
- 7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Asok K. Sarkar whose telephone number is 571 272 1970. The examiner can normally be reached on Monday Friday (8 AM- 5 PM).

Application/Control Number: 10/789,282

Art Unit: 2891
